DATA SHEET CALIGHT RPO DLC®-A

Calight RPO DLC-A is a petroleum hydrocarbon, silicon-dioxide blend. Calight RPO DLC-A is compatible with synthetic elastomers and their additives. Compatibility increases with naphthenic content and this increases viscosity-gravity constants, aromatic levels and lowers aniline points. Stability to color degradation and resistance to oxidation and aging requires that the level of polar or heterocyclic aromatics containing nitrogen, sulfur, and oxygen be kept to a minimum.

TEST	TEST METHOD	SPECIFICATION
Actives Content, %	QCL-8.2.4-2-1	70 - 74
Carrier Content, %	QCL-8.2.4-2-1	26 - 30
Appearance	Visual	White to light tan powder

TYPICAL PROPERTIES

Actives Content, %	72
Carrier Content, %	28
Specific Gravity (Apparent)	1.083
Packaging	40# Net, Multi-Wall Bags
Color	Off-White

Calight RPO DLC-A meets the requirements of CFR 178.3620(c).

Date of Revision: 02/24/04
