

Micro-Chek® 11 IPA

Product Description

Micro-Chek® 11 IPA is an EPA registered, low toxicity industrial mildewicide formulated for the protection of PVC, polyurethane and other polymer compositions susceptible to attack by micro-organisms. Micro-Chek® 11 IPA is a 4% solution of the active ingredient 2-n-octyl-4-isothiazol in-3-one, in a solvent carrier and contains no heavy metals.

Safety and Handling

As with chemicals in general, Micro-Chek® 11 IPA should be handled with care. It is a skin irritant and contact with skin and eyes should be avoided. Protective gloves and faceshield or goggles are recommended. Wash thoroughly after handling and launder clothing before reuse. It is harmful if swallowed and should be kept out of reach of children.

Micro-Chek® 11 IPA is toxic to fish. Do not discharge directly to water and do not contaminate water by cleaning of equipment or waste disposal. Use only as directed on the label.

Typical Properties

Active ingredient	4%
Density (25°C)	6.66
Odor	Alcohol
Flash Point (PMCC)	11.7°C
Appearance	Sparkling clear, light yellow liquid
Carrier	Isopropyl alcohol
Net Drum Weight	250 lbs.
