SR315

SR315 is a high structure, small particle-sized, pelletized carbon black developed for superior performance in color applications where dispersion stability and speed, high jetness, blue undertone, and low ash/grit are critical. It provides good performance on uncoated paper and may be used in aqueous, solvent, or oil-based dispersions.

Performance Features

- Fast incorporation
- Good dispersion stability
- Blue undertone, high jetness
- Excellent processability
- Good UV protection

Typical Applications

- Inks
- Paints, primers
- Enamels, coatings
