

## Therm-Chek® 176

### Stabilizer Product Profile

#### Product Description

Therm-Chek® 176 is a liquid barium viscosity modifier and heat stabilizer for use in plastisol PVC applications.

Therm-Chek® 176 provides good air release and viscosity control to PVC plastisol formulations. It also provides improved long term thermal stability.

Therm-Chek® 176 is recommended for use at 0.5 – 1.0 phr depending on the formulation requirements and heat stabilizers present in the system.

#### Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

#### Typical Properties

Physical state	Dark Clear Amber Liquid
Density (lbs/ gal)	8.0
Color (Gardner)	7
