

Therm-Chek® 5526

Stabilizer Product Profile

Product Description

Therm-Chek® 5526 is recommended for use in improving clarity and color retention in calendered, extruded and plastisol PVC applications. Therm-Chek® 5526 should normally be used in conjunction with Valtris nontoxic heat stabilizers. In some formulations, Therm-Chek® 5526 will also aid in extending long-term stability.

Therm-Chek® 5526 meets requirements of Title 21, U.S. Code of Federal Regulations (21 CFR) under Section 178.2010 – Antioxidants and/or Stabilizers for Polymers.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Appearance	Light yellow liquid
Specific Gravity	0.980 – 0.992
Vixcosity (Gardner)	Z 6
Color (Gardner)	3 max.
