

Therm-Chek® SP 1314

Stabilizer Product Profile

Product Description

Therm-Chek® SP 1314 is a proprietary blend of stannous tin, calcium and zinc stearates modified to produce increased early color hold. Excellent clarity is the key property imparted by Therm-Chek® SP 1314. It is thus particularly recommended for flexible and rigid applications requiring this characteristic.

Therm-Chek® SP 1314 will produce optimum results when utilized in combination with epoxidized oils and phosphite chelators.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical State	Free Flowing, Off-white Powder
Specific Gravity	1.2
Bulk Density (g/cc)	0.3
