

Therm-Chek® SP 1363

Stabilizer Product Profile

Product Description

Therm-Chek® SP 1363 is a barium, zinc liquid heat stabilizer for use in PVC plastisol applications. Therm-Chek® SP 1363 provides superior heat stability and clarity in clearcoat flooring applications.

Therm-Chek® SP 1363 provides good air release and viscosity control in plastisol formulations. It also provides excellent UV light stability and low temperature heat stability.

Therm-Chek® SP 1363 has been developed to provide good initial color and long term heat stability in a variety of dispersion resins.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical State	Clear Liquid
Density (lbs./gal.)	7.6
Specific Gravity	0.929
Viscosity (Gardner)	A-3
Color (Gardner)	1
