

Therm-Chek[®] SP 1934

Stabilizer Product Profile

Product Description

Therm-Chek[®] SP 1934 is a calcium, zinc liquid stabilizer for use in plastisol and general purpose flexible PVC formulations. Therm-Chek[®] SP 1934 is recommended as a general-purpose stabilizer for extrusion and plastisol applications.

Therm-Chek[®] SP 1934 provides good early and long-term color hold. Therm-Chek[®] SP 1934 also provides good low temperature heat aging and good viscosity control in plastisols.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

| | |
|---------------------------|----------------------|
| Appearance | Clear, yellow liquid |
| Specific Gravity | 0.96 |
| Density (lbs. Per gallon) | 7.95 |
| Viscosity (Gardner) | A-1 |
| Color (Gardner) | 1 |
