DATA SHEET

TRILENE[®] CP80 DLC[®] -A

Trilene CP80 DLC-A is a trilene liquid polymer, silicon-dioxide blend based on new, low-molecular weight ethylene-propylene copolymers which have low viscosities at processing temperatures. As such, they are excellent processing aids for rubber compounding. Trilene CP80 DLC-A is effective in EPDM, BR, NR, SBR, and other elastomers.
